

# CORROSIONX<sup>®</sup>

## EXTREME PERFORMANCE / NLGI II

CorrosionX is now available in a high-performance, multi-purpose, extreme pressure rated NLGI #2 grade premium grease. We know of no finer product available on the market today.

Engineered for maximum shear stability, film strength and heavy shock-load performance, CorrosionX Grease offers unsurpassed wear and extreme pressure protection.

CorrosionX Grease is the product of choice for automotive and extreme pressure applications in marine, construction, mining, agricultural, logging and hauling industries.

- SUPERIOR RESISTANCE TO CORROSIVE SALTWATER ENVIRONMENTS
- EXTENDED EQUIPMENT SERVICE LIFE
- PREVENTS SEIZING AND GALLING
- OUTSTANDING "NO-DRIP" HIGH TEMPERATURE PERFORMANCE
- PROVEN LOW-TEMP PUMPABILITY CHARACTERISTICS
- ENVIRONMENTALLY RESPONSIBLE

### TECHNICAL SPECIFICATIONS

N.L.G.I. Grade	#2
Thickener Type	Calcium Sulfonate Complex
VOC (% by wt.):	1%
Penetration Range ASTM D-217	265-295
Flash Point (°F/°C)	400 / 204
Dropping Point (°F/°C) ASTM D-2265	+550 / +287
Rust Protection ASTM D-1743	Pass
Timken OK Load ASTM 2509	65 lbs.
4-ball EP Load Wear Index ASTM D-2596	65
4-ball EP Weld Point (kg) ASTM D-2596	620
Water Washout @ 175°F (%) ASTM D-1264	3.0
Wheel Bearing Leakage(g) ASTM D-1263	5.0 max

### POLAR BONDING TECHNOLOGY INSIDE

DEVELOPED TO EXCEL IN THE MOST DEMANDING APPLICATIONS AND SPECIFICALLY FOR THE MARINE ENVIRONMENT.

- Sticks to metal like a magnet to resist fresh and saltwater washout
- Maximum shear stability and film strength
- Superior shock-load performance
- Synergistic corrosion inhibitors protect against rust and corrosion
- Legendary CorrosionX<sup>®</sup> oxidation resistance

Preserving the things you love.

All Products 100% Made In The USA
